

EHO MASTER

Quick Mnemonic Reference Guide

NexSpeak System - Range 600-699
(Texture: LECHE)

For Chef Javier
UK Hotel Kitchen

FHRS Scoring System

Pillar	Points	Key Areas
Food Hygiene & Safety	0-25	Food handling, temps, cleanliness
Structural Compliance	0-25	Premises, equipment, design
Confidence in Management	0-30	HACCP/SFBB, records, training

Points	Stars	Meaning
0-15	5 stars	Very Good
16-20	4 stars	Good
21-30	3 stars	Generally Satisfactory
31-40	2 stars	Improvement Necessary
41-50	1 star	Major Improvement Necessary
50+	0 stars	Urgent Improvement Necessary

KEY: Fewer points = BETTER rating (points are penalties)

Critical Temperatures

Fridge: Below 8°C (legal max), best practice 1-5°C

Hot holding: Above 63°C

Cooking: Core temp minimum 75°C (poultry ALWAYS 75°C)

2-hour rule: Food out of temperature control max 2 hours, then discard

Probe calibration: Ice water 0°C, boiling water 100°C

Rapid cooling: 63°C to 21°C within 2 hours, then refrigerate

DANGER ZONE: 8-63°C

The 14 Allergens - Part 1

#	Allergen	Common Hidden Sources	NexSpeak
1	Celery	Celeriac, celery salt, stocks, soups	620
2	Cereals containing gluten	Wheat, rye, barley, oats, soy sauce, beer	621
3	Crustaceans	Prawns, crab, lobster, crayfish, shrimp paste	622
4	Eggs	Mayonnaise, pasta, cakes, quiche, meringue	623
5	Fish	Anchovies, Worcestershire sauce, fish sauce, Caesar dressing	624
6	Lupin	Some gluten-free flour, pastry, bread	625
7	Milk	Butter, cream, cheese, ghee, yoghurt, whey	626

The 14 Allergens - Part 2

#	Allergen	Common Hidden Sources	NexSpeak
8	Molluscs	Mussels, oysters, squid, octopus, snails	627
9	Mustard	Powder, seeds, leaves, marinades, dressings	628
10	Peanuts	Groundnut oil, peanut flour, satay sauce	629
11	Sesame	Tahini, hummus, some breads, halva	630
12	Soybeans	Tofu, soy sauce, miso, edamame, lecithin	631
13	Sulphur dioxide & sulphites	Wine, dried fruit, some meat products (>10ppm)	632
14	Tree nuts	Almonds, hazelnuts, walnuts, cashews, pecans, pistachios, macadamia, brazil nuts	633

KEY: Learn NexSpeak codes 620-633 for rapid recall during inspection.

Colour-Coded Chopping Boards

Colour	Use
RED	Raw meat & poultry
BLUE	Raw fish & shellfish
YELLOW	Cooked meat
GREEN	Fruit, salad & vegetables
BROWN	Root vegetables
WHITE	Bakery & dairy
PURPLE	Free-from / allergen-free

FRIDGE ORDER: Top = Ready-to-eat (RTE), Middle = Cooked meat, Bottom = Raw meat & fish

HACCP & The 4 C's

7 HACCP Principles:

- 1. Identify potential hazards (biological, chemical, physical)
- 2. Determine Critical Control Points (CCPs)
- 3. Establish critical limits for each CCP
- 4. Monitor CCPs continuously
- 5. Corrective actions when limits breached
- 6. Verification procedures
- 7. Record keeping and documentation

C	Explanation
Cross-contamination	Separate raw from cooked, use colour-coded boards, avoid contact
Cleaning	Clean and disinfect all surfaces, equipment, utensils
Chilling	Maintain proper cold temperatures (fridge <8°C, freezer <-18°C)
Cooking	Cook to safe temperatures (core >75°C, minimum 2 min)

Top 10 Inspector Questions

1. Temperature monitoring?

→ We have daily temperature logs. Fridge checked twice daily, probes calibrated weekly. Here are our records.

2. Responsibility for food safety?

→ I am the duty manager and Food Safety Supervisor. I hold a Level 3 Food Hygiene certificate.

3. HACCP procedures?

→ Here is our SFBB pack / HACCP documentation. Our CCPs cover: delivery, storage, cooking, cooling, and service.

4. Prevent cross-contamination?

→ Colour-coded boards, separate preparation areas, handwashing between tasks, raw stored below cooked in the fridge.

5. Last cleaned equipment?

→ We follow a daily cleaning schedule posted here. Deep clean every Sunday. All logged and signed.

Top 10 Inspector Questions (continued)

6. Allergens in dish?

→ Let me check our allergen matrix — [identifies allergens]. We update this whenever recipes change.

7. Food left out 3 hours?

→ Discard it immediately. The 2-hour rule means anything beyond 2 hours in the danger zone must be thrown away.

8. Food deliveries?

→ Check temperature on arrival, inspect packaging, verify use-by dates, reject anything non-compliant, and log it.

9. Staff training?

→ All staff have Level 2 Food Hygiene minimum. Records here. Allergen awareness training completed annually.

10. Customer allergic reaction?

→ Call 999 immediately. Do not move the person. Check if they have an EpiPen. Preserve the food sample. Log the incident.

NexSpeak Chunk Map 600-699

Range	Topic	Codes
600-609	EHO Fundamentals	600-609
610-619	Critical Temperatures	610-619
620-634	The 14 Allergens	620-634
635-644	Colour-Coded Boards & Cross-Contamination	635-644
645-654	HACCP / SFBB / Due Diligence	645-654
655-664	Cleaning & Premises	655-664
665-674	Confidence in Management	665-674
675-684	Inspector Questions	675-684
685-694	Natasha's Law & Allergen Matrix	685-694
695-699	Red Flags & First Impressions	695-699
